PROJECTS

HEALING HEARTBOT

GITHUB | DEPLOYED SITE
Node.js, Express, MongoDB

Twitter bot that sends uplifting messages, songs, or gifs to those in need of some inspiration. Tweet at the bot with your mood and receive a supportive message, or share your own advice that will then be tweeted out to others. REST API and front end.

TONE CHECK

GITHUB | DEPLOYED SITE
Node.js, Express, PostgresSQL, IBM Watson API

Full-stack app that lets users analyze the mood of inputted text at the document and sentence levels, and then save analyzed messages to their profile.

DEJA BREW

GITHUB | DEPLOYED SITE
Vanilla JavaScript, HTML/CSS

Training game to learn how to make different coffee drinks with study materials, timed game play, and a page to track user results. Local and session storage utilized to persist user results for the current session and for all time.

TECH STACK

LANGUAGES	FRONT END	BACK END
JavaScript	React	Node.js
HTML/CSS	Redux	Express
